FLEXILINK

Handlebars, Node.js, MongoDB

- Developed a comprehensive fitness platform that allows users to access gym facilities on a daily basis for a fee.
- Implemented a location-based search feature to help users conveniently find and access nearby gyms.
- Designed a revenue and user management system to assist gym owners in tracking earnings and managing their customer base.
- Streamlined the process for users to transition from daily passes to long-term memberships seamlessly.

CERTIFICATIONS

- Internship on 'Python' - **TECHNOVALLEY SOFTWARE INDIA PVT LTD**
- Participated in Workshop on Cloud Computing - **NIT CALICUT**
